

Teleflex Marine Instruments

NOW with 3 levels of features:

Pro Series

These are the same premium units OEMs install as original equipment! Pro Series offers boaters the best in instruments with domed glass, fog resistant design and superior, automotive type illumination. An ideal upgrade during re-powers or any time more than one gauge needs to be replaced.

- Superior illumination: automotive type light piping for outstanding readability at night and no “halo” around edge of dial.
- Fog Resistant design* for maximum visibility in all conditions.
- Scratch-resistant domed glass lenses

**Complies with SAE J-1810*

Signature Series

This family of cutting edge, OEM type instruments has the very same gauges you’ll see on brand new boats. Not just “close enough”, they’re the real thing featuring domed lenses, stunning graphics PLUS combination through-dial and perimeter lighting! Formerly manufactured exclusively for boat builders, these popular OEM instruments are now available to YOU! Want to get that cockpit up to date? Here’s your chance!

- Scratch-resistant domed glass lenses.
- Enhanced illumination: through-dial and perimeter lighting for excellent readability at night. (Sterling is perimeter lit only.)
- Low-range speedos (except Sterling).

Value Series

Red, White & Blue Replacement Instruments feature classic styling and vivid colors which look great in any boat, yet go easy on the budget. Cosmetically acceptable replacements for Teleflex and other brands of red-line, white and blue-line gauges.

- Scratch-resistant flat glass lenses.
- Perimeter lighting — easy night readability.
